

CURRENT TITLES IN MARINE GEOLOGY

PART II

Abbott, William H. Diatom occurrences, Deep Sea Drilling Project Hole 543: *in* Initial reports of the Deep Sea Drilling Project covering Leg 78A of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to San Juan, Puerto Rico, February-March 1981; and covering Leg 78B of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to Las Palmas, Grand Canary Island, March-April, 1981 (Biju-Duval, Bernard; *et al.*), Initial Reports of the Deep Sea Drilling Project, 78A-78B, p. 469, illus. (incl. 2 tables), 1984.

Abu-Gideiri, Yousif B. Impacts of mining on central Red Sea environment: *in* Marine science of the north-west Indian Ocean and adjacent waters (Angel, Martin V., editor), Deep-Sea Research. Part A: Oceanographic Research Papers, 31(6-8A), p. 823-828, illus. (incl. 1 table, sketch map), 1984. *Mabahiss/John Murray international symposium.*

Adair, Richard G.; Orcutt, John A.; and Jordan, Thomas H. Analysis of ambient seismic noise recorded by downhole and ocean-bottom seismometers on Deep Sea Drilling Project Leg 78B: *in* Initial reports of the Deep Sea Drilling Project covering Leg 78A of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to San Juan, Puerto Rico, February-March 1981; and covering Leg 78B of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to Las Palmas, Grand Canary Island, March-April, 1981 (Biju-Duval, Bernard; *et al.*), Initial Reports of the Deep Sea Drilling Project, 78A-78B, p. 767-781, illus. (incl. sketch maps), 1984.

Aida, Isamu. A source model of the tsunami accompanying the 1983 Nihonkai-Chubu earthquake: Bulletin of the Earthquake Research Institute = Tokyo Daigaku Jishin Kenkyusho Iho, 59(1), p. 93-104 (Japanese, incl. English sum.), 1984.

Aitsam, A.; Hansen, H. P.; Elken, J.; et al. Physical and chemical variability of the Baltic Sea; a joint experiment in the Gotland Basin: Continental Shelf Research, 3(3), p. 291-310, illus. (incl. sketch maps), 1984.

Albani, A. D.; Favero, V.; and Serandrei Barbero, R. Benthonic foraminifera as indicators of intertidal environments: Geo-Marine Letters, 4(1), p. 43-47, illus. (incl. 1 table, geol. sketch map), 1984.

Almagor, Gideon. Salt-controlled slumping on the Mediterranean slope of central Israel: Marine Geophysical Researches, 6(3), p. 227-243, illus. (incl. sects., geol. sketch maps), 1984.

Alt, Jeffrey C.; and Honnorez, Jose. Alteration of the upper oceanic crust, DSDP site 417; mineralogy and chemistry: Contributions to Mineralogy and Petrology, 87(2), p. 149-169, illus. (incl. 6 tables, strat. col., sketch map), 1984.

Anderson, John B. Preliminary results of 1982-1983 Piston Coring Program: Antarctic Journal of the United States, 18(5), p. 157-158, 1 table, sketch maps, 1984. (1983 review).

Andrews, Barbara A.; and Anderson, John B. Till lithologies as indicators of subglacial geology in the Weddell Sea region, Antarctica [abstr.]: *in* The Geological Society of America, 1984 annual meeting, Abstracts with Programs - Geological Society of America, 16(6), p. 431, 1984.

Andrews, J. T.; and Jullis, T. Rates of fiord and shelf sediment accumulation, Baffin Island, Canada, based on ¹⁴C accelerator dates on in situ molluscs [abstr.]: *in* The Geological Society of America, 1984 annual meeting, Abstracts with Programs - Geological Society of America, 16(6), p. 431, 1984.

Angel, Martin V. (editor). Marine science of the north-west Indian Ocean and adjacent waters: Sept. 3-6, 1983, Egypt. Deep-Sea Research. Part A: Oceanographic Research Papers, 31(6-8A), 1035 p., illus. (incl. tables, sects., sketch maps), 1984.

Anonymous. Offshore exploration indicates rich sulfide deposits: *Mining Engineering*, 37(1), p. 11, 1985.

Arakawa, Shinji. Recent bryozoans on the east offshore of the Boso Peninsula: in *Geological investigation of the junction area of the Tohoku and Ogasawara arcs, April-June 1980 (GH 80-2 and 3 cruises)* (Miyazaki, Teruki, editor; *et al.*), *Cruise Report - Geological Survey of Japan*, 19, p. 74-77, 1 table, 1 plate, sketch map, 1984.

Artyukhin, Yu. V. Species makeup of shell deposits on beaches and its role in seashore development: *Oceanology*, 23(5), p. 635-639, illus. (incl. 2 tables, sketch map), 1984.

Astiz, Luciana; and Helmberger, Donald V. Upper-most mantle P-velocity structure beneath the Northwest Atlantic [abstr.]: in *Eastern Section of the Seismological Society of America, Earthquake Notes*, 55, p. 24, 1984.

Auzende, J. M.; Ceuleneer, G.; Cornen, G.; et al. Intraoceanic tectonism on the Gorringe Bank; observations by submersible: in *Ophiolites and oceanic lithosphere* (Gass, I. G., editor; *et al.*), *Geological Society Special Publications*, 13, p. 113-120, illus. (incl. sketch map, sects.), 1984. (Blackwell Sci. Publ.).

Baggeroer, Arthus B.; and Duckworth, Gregory L. Seismic exploration in the Arctic Ocean: in *Arctic technology and policy; proceedings of the Second annual MIT Sea Grant college program lecture and seminar and the Third annual Robert Bruce Wallace lecture* (Dyer, Ira, editor; *et al.*), p. 159-176, illus. (incl. sects., sketch maps), *Hemisphere Publ. Co.*, Washington, DC, United States, 1984.

Baker, Paul A.; and Burns, Donna J. Diagenesis of deep-sea carbonate sediments; isotopic and trace elemental studies [abstr.]: in *The Geological Society of America, 1984 annual meeting, Abstracts with Programs - Geological Society of America*, 16(6), p. 435, 1984.

Balistrieri, Laurie S.; and Murray, James W. Marine scavenging; trace metal adsorption by interfacial sediment from MANOP Site H1: *Geochimica et Cosmochimica Acta*, 48(5), p. 921-929, illus. (incl. 3 tables), 1984.

Ballard, J. A.; Mulcahy, Carl C.; Wallerstedt, Robert L.; et al. The borehole seismic experiment in Hole 395A; engineering and installation: in *Initial reports of the Deep Sea Drilling Project covering Leg 78A of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to San Juan, Puerto Rico, February-March 1981; and covering Leg 78B of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to Las Palmas, Grand Canary Island, March-April, 1981* (Biju-Duval, Bernard; *et al.*), *Initial Reports of the Deep Sea Drilling Project, 78A-78B*, p. 743-757, illus. (incl. 4 tables), 1984.

Banik, Niranjan C. Velocity anisotropy of shales and depth estimation in the North Sea basin: *Geophysics*, 49(9), p. 1411-1419, illus. (incl. 1 table, strat. cols.), 1984.

Barash, M. S. Quaternary palaeoceanography of the Atlantic: in *Palaeoceanography* (Lisitzin, A. P., editor; *et al.*), *International Geological Congress*, 27, p. 163-175, illus., 1984. (Colloquium 03; Report Volume 3).

Barron, Eric J.; Saltzman, E.; and Price, D. A. Occurrence of *Inoceramus* in the South Atlantic and oxygen isotopic paleotemperatures in Hole 530A: in *Initial reports of the Deep Sea Drilling Project covering Leg 75 of the cruises of the drilling vessel Glomar Challenger, Walvis Bay, South Africa to Recife, Brazil, July-September, 1980* (Hay, William W.; *et al.*), *Initial Reports of the Deep Sea Drilling Project, 75(Part 2)*, p. 893-904, illus. (incl. 4 tables, strat. cols.), 1984.

Baturin, G. N.; Romankevich, Ye. A.; and Shadskiy, I. P. Carbon isotope composition of bone phosphate lipids in bottom sediments: *Oceanology*, 23(5), p. 597-600, illus. (incl. 13 anal., 1 table), 1984.

Becker, Keir; Langseth, Marcus G.; and Hyndman, Roy D. Temperature measurements in Hole 395A, Leg 78B: in *Initial reports of the Deep Sea Drilling Project covering Leg 78A of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to San Juan, Puerto Rico, February-March 1981; and covering Leg 78B of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to Las Palmas, Grand Canary Island, March-April, 1981* (Biju-Duval, Bernard; *et al.*), *Initial Reports of the Deep Sea Drilling Project, 78A-78B*, p. 689-698, illus. (incl. 1 table, sketch map), 1984.

Bee, M.; Johnson, S. H.; and Chiburis, E. F. Marine seismic refraction study between Cape Simpson and Prudhoe Bay, Alaska: *JGR. Journal of Geophysical Research. B*, 89(8), p. 6941-6960, illus. (incl. 2 tables, sketch maps), 1984.

Bee, Michel. A comparison of seismic properties of young and mature oceanic crust: 196 p., Doctoral, 1984, Oregon State Univ., Corvallis, OR. *available from:* Univ. Microfilms.

Belderson, R. H.; Kenyon, N. H.; and Stride, A. H. Morphology and structural trends of the Barbados Ridge complex in the vicinity of Deep Sea Drilling Project sites 541, 542, and 543 as revealed by GLORIA long-range side-scan sonar: *in* Initial reports of the Deep Sea Drilling Project covering Leg 78A of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to San Juan, Puerto Rico, February-March 1981; and covering Leg 78B of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to Las Palmas, Grand Canary Island, March-April, 1981 (Biju-Duval, Bernard; *et al.*), Initial Reports of the Deep Sea Drilling Project, 78A-78B, p. 79-81, illus. (incl. sketch map), 1984.

Bell, Thomas E. Shale diagenesis in a Miocene to Recent stratigraphic section, Texas Gulf Coast [abstr.]: *in* The Geological Society of America, 1984 annual meeting, Abstracts with Programs - Geological Society of America, 16(6), p. 442, 1984.

Bender, Michael L.; and Heggie, David T. Fate of organic carbon reaching the deep sea floor; a status report: *Geochimica et Cosmochimica Acta*, 48(5), p. 977-986, illus. (incl. 12 tables, sketch map), 1984.

Bennett, Richard H.; Almagor, Gideon; Chaney, Ronald C.; *et al.* Geotechnical properties of sediments from Walvis Ridge, Deep Sea Drilling Project, Leg 75, Hole 532A: *in* Initial reports of the Deep Sea Drilling Project covering Leg 75 of the cruises of the drilling vessel Glomar Challenger, Walvis Bay, South Africa to Recife, Brazil, July-September, 1980 (Hay, William W.; *et al.*), Initial Reports of the Deep Sea Drilling Project, 75(Part 2), p. 1109-1127, illus. (incl. 5 tables, charts), 1984.

Bennett, T. J.; and Murphy, J. R. Seismicity and tectonics of the Caspian Sea region [abstr.]: *in* Eastern Section of the Seismological Society of America, Earthquake Notes, 55, p. 30, 1984.

Bentley, C. R.; Shabtaie, S.; Lingle, C. S.; *et al.* Analysis of geophysical data from Dome C and the Ross Ice Shelf: *Antarctic Journal of the United States*, 18(5), p. 104-105, 1984. (1983 review).

Benzing, William M.; Byerly, P. E.; and Hopkins, J. R. Shear and compressional wave data interpretation; Midland Basin, Texas [abstr.]: *in* 1983 annual meeting abstracts, Society of Exploration Geophysicists, Geophysics, 49(5), p. 638, 1984. *Society of Exploration Geophysicists, 53rd annual international meeting.*

Berckhemer, H.; and Purcaru, G. Seismic potentiality of the central and eastern Mediterranean region: *in* Earthquakes and geological hazard prediction (Fedotov, S. A., editor; *et al.*), International Geological Congress, 27(6), p. 55-70, 1984. (Colloquium 06).

Bergen, James A. Calcareous nannoplankton from Deep Sea Drilling Project Leg 78A; evidence for imbricate underthrusting at the Lesser Antillian active margin: *in* Initial reports of the Deep Sea Drilling Project covering Leg 78A of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to San Juan, Puerto Rico, February-March 1981; and covering Leg 78B of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to Las Palmas, Grand Canary Island, March-April, 1981 (Biju-Duval, Bernard; *et al.*), Initial Reports of the Deep Sea Drilling Project, 78A-78B, p. 411-445, illus. (incl. 12 tables, 11 plates, chart, sketch map), 1984.

Berger, W. H.; Killingley, J. S.; and Vincent, E. Deglaciation starts 14,000 years ago; evidence from the central Atlantic [abstr.]: *in* The Geological Society of America, 1984 annual meeting, Abstracts with Programs - Geological Society of America, 16(6), p. 443, 1984.

Berger, Wolf H. On transgression warming and deglaciation: *in* Stratigraphy quo vadis? (Seibold, Eugen, editor; *et al.*), AAPG Studies in Geology, 16, p. 29-37, illus. (incl. 1 table), 1984. (IUGS Special Publication No. 14). *IUGS Commission on Stratigraphy symposium.*

Berry, J. T.; and Wilson, D. C. Geology and reserves: *in* The southern North Sea; new opportunities (Hughes, Harold W. D., chairperson), Institution of Mining and Metallurgy. Transactions, Section B: Applied Earth Sciences, 93, p. B134-B140, illus. (incl. 3 tables, charts, sketch maps), 1984. *Institution of Mining and Metallurgy meeting.*

Bhattacharya, N. Provenance control of diagenesis in clayey sediments in the northern part of western continental shelf of India: *Journal of the Geological Society of India*, 25(7), p. 427-436, illus. (incl. geol. sketch map), 1984.

Bideau, D.; and Hekinian, R. Segregation vesicles of ocean floor basalts; 1, Petrological study of the segregation products: *JGR. Journal of Geophysical Research. B*, 89(9), p. 7903-7914, illus. (incl. 3 tables), 1984.

Bideau, D.; Prevot, M.; and Lecaille, A. Segregation vesicles of ocean floor basalts; 2, Their use as paleovertical indicators: JGR. Journal of Geophysical Research. B, 89(9), p. 7915-7930, illus. (incl. 1 table, sketch map), 1984.

Biju-Duval, Bernard; Moore, J. Casey; Bergen, James A. (editors); et al. Site 541; toe of the Barbados Ridge complex: *in* Initial reports of the Deep Sea Drilling Project covering Leg 78A of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to San Juan, Puerto Rico, February-March 1981; and covering Leg 78B of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to Las Palmas, Grand Canary Island, March-April, 1981 (Biju-Duval, Bernard; *et al.*), Initial Reports of the Deep Sea Drilling Project, 78A-78B, p. 107-186, illus. (incl. 6 tables, 27 plates, strat. cols., sect., sketch maps), 1984.

Biju-Duval, Bernard; Moore, J. Casey; Bergen, James A. (editors); et al. Site 542; toe of the Barbados Ridge complex: *in* Initial reports of the Deep Sea Drilling Project covering Leg 78A of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to San Juan, Puerto Rico, February-March 1981; and covering Leg 78B of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to Las Palmas, Grand Canary Island, March-April, 1981 (Biju-Duval, Bernard; *et al.*), Initial Reports of the Deep Sea Drilling Project, 78A-78B, p. 187-225, illus. (incl. 6 tables, 10 plates, strat. cols., sects., sketch maps), 1984.

Biju-Duval, Bernard; Moore, J. Casey; Bergen, James A. (editors); et al. Site 543; oceanic reference site east of the Barbados Ridge complex: *in* Initial reports of the Deep Sea Drilling Project covering Leg 78A of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to San Juan, Puerto Rico, February-March 1981; and covering Leg 78B of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to Las Palmas, Grand Canary Island, March-April, 1981 (Biju-Duval, Bernard; *et al.*), Initial Reports of the Deep Sea Drilling Project, 78A-78B, p. 227-298, illus. (incl. 4 tables, 22 plates, strat. cols., sects., sketch maps), 1984.

Biju-Duval, Bernard; Moore, J. Casey; Bergen, James A. M. (editors); et al. Initial reports of the Deep Sea Drilling Project covering Leg 78A of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to San Juan, Puerto Rico, February-March 1981; and covering Leg 78B of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to Las Palmas, Grand Canary Island, March-April, 1981: Initial Reports of the Deep Sea Drilling Project, 78A-78B, 848 p., illus. (incl. tables, plates, sketch maps; bathym. maps), 1984.

Blackford, M. E. Reevaluation of the Abe B-factor for use in forecasting potential tsunami wave heights on the California coast [abstr.]: *in* Eastern Section of the Seismological Society of America, Earthquake Notes, 55, p. 21, 1984.

Bode, Gerald R. Appendix I; Grain-size analyses: *in* Initial reports of the Deep Sea Drilling Project covering Leg 75 of the cruises of the drilling vessel Glomar Challenger, Walvis Bay, South Africa to Recife, Brazil, July-September, 1980 (Hay, William W.; *et al.*), Initial Reports of the Deep Sea Drilling Project, 75(Part 2), p. 1301-1303, illus. (incl. 1 table), 1984.

Boersma, Anne. Pliocene planktonic and benthic foraminifers from the southeastern Atlantic Angola Margin; Leg 75, Site 532, Deep Sea Drilling Project: *in* Initial reports of the Deep Sea Drilling Project covering Leg 75 of the cruises of the drilling vessel Glomar Challenger, Walvis Bay, South Africa to Recife, Brazil, July-September, 1980 (Hay, William W.; *et al.*), Initial Reports of the Deep Sea Drilling Project, 75(Part 2), p. 657-669, illus. (incl. 3 tables, 5 plates, charts, strat. col., sketch map), 1984.

Boersma, Anne. Oligocene and other Tertiary benthic foraminifers from a depth traverse down Walvis Ridge, Deep Sea Drilling Project Leg 74, Southeast Atlantic: *in* Initial reports of the Deep Sea Drilling Project covering Leg 75 of the cruises of the drilling vessel Glomar Challenger, Walvis Bay, South Africa to Recife, Brazil, July-September, 1980 (Hay, William W.; *et al.*), Initial Reports of the Deep Sea Drilling Project, 75(Part 2), p. 1273-1300, illus. (incl. 2 tables, 8 plates, strat. cols., sect., sketch map), 1984.

Bonatti, Enrico; Lawrence, James R.; and Morandi, Noris. Serpentinization of oceanic peridotites; temperature dependence of mineralogy and boron content: Earth and Planetary Science Letters, 70(1), p. 88-94, illus. (incl. 2 tables), 1984.

Bose, P. K.; and Sengupta, B. J. Spectral analyses of offshore magnetic data for computing depths to the basement rocks: Marine Geophysical Researches, 6(3), p. 245-256, illus. (incl. 2 tables, sketch map), 1984.

Bothner, M. H.; Rendigs, R. R.; Campbell, Esma; et al. The Georges Bank monitoring program 1984; analysis of trace metals in bottom sediments during the second year of monitoring: Geological Survey Circular, 0936, 54 p., illus. (incl. 5 tables, sketch map), 1984.

Bougault, H.; Joron, J. L.; Maury, R. C.; et al. Basalts from the Atlantic crust west of the Barbados Ridge (Site 543, Leg 78A); geochemistry and mineralogy: *in* Initial reports of the Deep Sea Drilling Project covering Leg 78A of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to San Juan, Puerto Rico, February-March 1981; and covering Leg 78B of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to Las Palmas, Grand Canary Island, March-April, 1981 (Biju-Duval, Bernard; *et al.*), Initial Reports of the Deep Sea Drilling Project, 78A-78B, p. 401-408, illus. (incl. 12 anal., 5 tables, strat. cols., sketch map), 1984.

Boulegue, J.; Perseil, E. A.; Bernat, M.; et al. A high-temperature hydrothermal deposit on the East Pacific Rise near 7°N: Earth and Planetary Science Letters, 70(2), p. 249-259, illus. (incl. 4 tables, sketch map), 1984.

Bouysse, Philippe. The Lesser Antilles island arc; structure and geodynamic evolution: *in* Initial reports of the Deep Sea Drilling Project covering Leg 78A of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to San Juan, Puerto Rico, February-March 1981; and covering Leg 78B of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to Las Palmas, Grand Canary Island, March-April, 1981 (Biju-Duval, Bernard; *et al.*), Initial Reports of the Deep Sea Drilling Project, 78A-78B, p. 83-103, illus. (incl. 1 table, sects., charts, sketch maps), 1984.

Bowen, Adrian N. A high-resolution seismic profiling system using a deep-towed horizontal hydrophone streamer: Marine Geophysical Researches, 6(3), p. 275-293, illus., 1984.

Bowland, Christopher Lee. Seismic stratigraphy and structure of the western Colombian Basin, Caribbean Sea: 247 p., Master's, 1984, Univ. of Texas, Austin, TX.

Boyce, Robert E. Deep Sea Drilling Project drill sites 530 and 532 in the Angola Basin and on the Walvis Ridge; interpretation of induction log data, sonic log data, and laboratory sound velocity, density, porosity-derived reflection coefficients, and vane shear strength: *in* Initial reports of the Deep Sea Drilling Project covering Leg 75 of the cruises of the drilling vessel Glomar Challenger, Walvis Bay, South Africa to Recife, Brazil, July-September, 1980 (Hay, William W.; *et al.*), Initial Reports of the Deep Sea Drilling Project, 75(Part 2), p. 1137-1177, illus. (incl. 3 tables, charts), 1984.

Boyce, Robert E. Leg 75 methods for laboratory-measured physical properties, Gearhart-Owen well logs, and the Uyeda downhole temperature probe: *in* Initial reports of the Deep Sea Drilling Project covering Leg 75 of the cruises of the drilling vessel Glomar Challenger, Walvis Bay, South Africa to Recife, Brazil, July-September, 1980 (Hay, William W.; *et al.*), Initial Reports of the Deep Sea Drilling Project, 75(Part 2), p. 1179-1187, illus. (incl. 11 plates), 1984.

Boyce, Robert E. Laboratory-determined sound velocity, porosity, wet-bulk density, acoustic impedance, acoustic anisotropy, and reflection coefficients for Cretaceous-Jurassic turbidite sequences at Deep Sea Drilling Project sites 370 and 416 off the coast of Morocco: *in* Initial reports of the Deep Sea Drilling Project covering Leg 75 of the cruises of the drilling vessel Glomar Challenger, Walvis Bay, South Africa to Recife, Brazil, July-September, 1980 (Hay, William W.; *et al.*), Initial Reports of the Deep Sea Drilling Project, 75(Part 2), p. 1229-1244, illus. (incl. 1 table, sketch map), 1984.

Boyd, Janice Dinegar. Currents near Deep Sea Drilling Project Hole 395A and effects on components of the marine seismic system project: *in* Initial reports of the Deep Sea Drilling Project covering Leg 78A of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to San Juan, Puerto Rico, February-March 1981; and covering Leg 78B of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to Las Palmas, Grand Canary Island, March-April, 1981 (Biju-Duval, Bernard; *et al.*), Initial Reports of the Deep Sea Drilling Project, 78A-78B, p. 759-766, illus. (incl. 3 tables, sketch map), 1984.

Brassell, Simon C. Aliphatic hydrocarbons of a Cretaceous black shale and its adjacent green claystone from the southern Angola Basin, Deep Sea Drilling Project Leg 75: *in* Initial reports of the Deep Sea Drilling Project covering Leg 75 of the cruises of the drilling vessel Glomar Challenger, Walvis Bay, South Africa to Recife, Brazil, July-September, 1980 (Hay, William W.; *et al.*), Initial Reports of the Deep Sea Drilling Project, 75(Part 2), p. 1019-1030, illus. (incl. 7 tables, charts), 1984.

Brewster, John; and Dangerfield, John A. Chalk fields along the Lindesnes Ridge, Eldfisk: Marine and Petroleum Geology, 1(3), p. 239-278, illus. (incl. 1 table, sect., strat. cols., sketch maps), 1984.

Brown, Alistair R.; Wright, Roger M.; Abriel, William L.; et al. Interactive seismic mapping of net producible gas sands in the Gulf of Mexico [abstr.]: in 1983 annual meeting abstracts, Society of Exploration Geophysicists, Geophysics, 49(5), p. 653, 1984. *Society of Exploration Geophysicists, 53rd annual international meeting.*

Bukry, David. Neogene silicoflagellates from Deep Sea Drilling Project Site 543, western tropical Atlantic Ocean: in Initial reports of the Deep Sea Drilling Project covering Leg 78A of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to San Juan, Puerto Rico, February-March 1981; and covering Leg 78B of the cruises of the drilling vessel Glomar Challenger, San Juan, Puerto Rico to Las Palmas, Grand Canary Island, March-April, 1981 (Biju-Duval, Bernard; et al.), Initial Reports of the Deep Sea Drilling Project, 78A-78B, p. 463-468, illus. (incl. 2 tables, 3 plates), 1984.

Bulot, Aline; Diamant, M.; Kogan, M. G.; et al. Isostasy of aseismic tectonic units in the South Atlantic Ocean and geodynamic implications: Earth and Planetary Science Letters, 70(2), p. 346-354, illus. (incl. 1 table, sketch maps), 1984.

Burbach, George VanNess; Frohlich, Cliff; Pennington, Wayne D.; et al. Seismicity and tectonics of the subducted Cocos Plate: JGR. Journal of Geophysical Research. B, 89(9), p. 7719-7735, illus. (incl. 1 table, sketch maps), 1984.

Burns, Derek A. Nannofossil dating and paleoenvironmental interpretation of some Chatham Rise sediments collected on the Sonne-17 cruise: in Geology of the Chatham Rise phosphorite deposits east of New Zealand; results of a prospecting cruise with R/V Sonne (1981) (von Rad, Ulrich, editor; et al.), Geologisches Jahrbuch. Reihe D: Mineralogie, Petrographie, Geochemie, Lagerstättenkunde, 65, p. 91-97 (incl. German, Russian sum.), illus. (incl. 2 tables), 1984.

Burrollet, P. F. Deep Mediterranean basins and their oil potential [abstr.]: in Wallace E. Pratt memorial conference on future petroleum provinces of the world; abstracts, AAPG Bulletin, 68(9), p. 1200, 1984.

Burton, Paul W.; McGonigle, Robert; Makropoulos, Kostas C.; et al. Seismic risk in Turkey, the Aegean and the eastern Mediterranean; the occurrence of large magnitude earthquakes: The Geophysical Journal of the Royal Astronomical Society, 78(2), p. 475-506, illus. (incl. 3 tables, sketch map; colored seism. maps), 1984.

Butman, Bradford; and Moody, J. A. Bathymetric map of Lydonia Canyon, U.S. Atlantic outer continental shelf: U. S. Geol. Surv., Misc. Field Stud. Map, MF-1710, 2 sheets, bathym. map 1:50,000, 1984.

Buzas, Martin A.; and Culver, Stephen J. Species duration and evolution; benthic foraminifera on the Atlantic continental margin of North America: Science, 225(4664), p. 829-830, illus. (incl. 1 table), 1984.
